PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building responsive web applications and REST APIs using JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, PHP, and WordPress. Experienced in JWT-based authentication, API integrations, AWS EC2 deployment, Linux server administration, debugging, and performance optimization.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, PHP, Python, REST APIs, OpenAI API, JWT, role-based access control

Databases: MySQL, MongoDB, SQL Server

Cloud and DevOps: AWS EC2, Linux (Ubuntu), SSH, server administration, deployment, monitoring, CI/CD

IDEs and Tools: Visual Studio Code, Visual Studio, Cursor, Git, GitHub, Postman, WordPress

PROFESSIONAL EXPERIENCE

Full Stack Developer | Digital Cyber Nation | On-site

July 8, 2025 - Present

- Develop web applications using React.js, Next.js, TypeScript, Node.js, and Express.js.
- Build REST APIs and integrate external services and payment gateways.
- Implement JWT authentication, role-based authorization, debugging, testing, and performance improvements.
- Collaborate through Git and GitHub using version control, code review, and team workflows.

Full Stack Developer (AWS and Server Operations) | NeoDimension | Saudi Client

May 2026 - Present | Part-time Freelance

- Manage AWS EC2 and Ubuntu servers, including deployment, configuration, monitoring, security, and troubleshooting.
- Develop and maintain frontend and backend functionality using JavaScript, PHP, HTML, CSS, Bootstrap, and WordPress.
- Build server-side features, REST APIs, and third-party service integrations for client-facing applications.
- Optimize application and server performance and create Python automation and reporting scripts.

SELECTED PROJECTS

NexaCare - Full-Stack AI Customer Support | Node.js, JavaScript, REST APIs, OpenAI API | [GitHub](#)

- Built a customer-support platform with knowledge-grounded responses, persistent conversations, voice input, human handoff, and analytics.
- Implemented REST endpoints, validation, security headers, atomic data persistence, service-health monitoring, safe AI fallback, and automated tests.

Clarity Accessibility Auditor | JavaScript, Vite, axe-core, WCAG 2.2 AA | [GitHub](#)

- Created a responsive browser-based accessibility auditing workspace with risk scoring, severity analysis, remediation guidance, and JSON report export.
- Added isolated HTML scanning, persistent local history, score comparison, copy-ready fixes, and desktop/mobile support.

Virtual Reality Exposure Therapy (VRET) | Final Year Project | C#, Blender

- Developed an interactive VR exposure-therapy system with immersive 3D environments for guided therapy simulations.
- Integrated interactive VR components with backend functionality and contributed to system design, testing, performance, and usability.

EDUCATION

BS Computer Science | Iqra University, Karachi | 2022 - 2026
